## COAL PRIORITY BILL IS PASSED

House Suspends Rules, Approving  
Measure to Give State Insti-  
tutions Shipments Preference

APPROPRIATION BILL IS UP

Action Postponed to Give Members  
Opportunity to Study it—New  
Tax Bills Introduced

(By United Press.)

Indianapolis, Ind., July 14—Passing up consideration of the institutional appropriation bill until it can be printed and distributed to the members, the house of representatives of the special legislative session today suspended the rules and took action on the Swain bill providing for constitutional priority on coal shipments to state institutions.

The appropriation bill was to have been a special order of business for today but Speaker Eschbach did not want the house to act without thoroughly going over it.

There was nothing of importance before the senate and after 10 a. m. the session this morning adjourned for committee work until three o'clock this afternoon.

Senator English introduced a bill providing for a refund of excess amounts paid by Indiana taxpayers due to the horizontal increases on property valuations ordered by the state tax board.

The bill was a duplicate of the one introduced in the house yesterday.

The coal priority bill passed 78 to 15 after a brief heated argument in which Representative O'Neil of Terre Haute objected to the measure on behalf of the coal miners. O'Neil declared that the miners would hold the sack if the bill was passed. He asserted the measure was unfair to the coal miners inasmuch as it gave much of the work to miners for contracts to furnish coal for the state.

Following the committee's report, the house suspended the rules and passed the permanent registration bill unanimously. The rule was suspended by motion of Representative Southard, its author.

Thirty-three bills of minor importance were introduced in the house at the morning session. One of them was presented by Representative Rowbottom and was a duplicate of the measure introduced in the senate by Hogston yesterday afternoon which abolished the public service commission and recreated the railroad commission.

Rowbottom yesterday introduced a bill abolishing the public service commission without making provision for a machine to carry on its work.

The bill appropriating money for the state institutions was to be taken up by the house as a committee of the whole when it reassembled for the afternoon session at three o'clock.

## GERMAN OCCUPATION APPEARS INEVITABLE

Allied Military Leaders Called to  
Spa When Huns Refuse to Meet  
Coal Demands

FRENCH MAY BE ORDERED IN

(By United Press.)

Spa, Belgium, July 14.—With the summoning of Marshal Foch and Field Marshal Sir Henry Wilson, allied occupation of German territory and other measures to enforce the Versailles treaty seemed inevitable today.

Germany's flat refusal to meet the allied demands for two million tons of coal monthly resulted in the suspension of the convention and the calling of allied military leaders.

Plans have been completed for action against Germany. Unless some solution of the situation is reached today the French army on the Rhine will be ordered to proceed into Germany.

## INDIANA STATE LIBRARY DAMAGE DONE

Winds Blows Down Trees and Corn  
and Flattens Wheat Shocks

No reports were received today of any serious damage being done by the severe wind and electrical storm which visited Rush county yesterday evening and was particularly severe in the northern part of the county. Many beautiful shade trees in Rushville were blown down and also in the northern part of the county, large numbers of trees were laid low. Wheat shocks were flattened and telephone poles twisted over. The corn was blown over in some places, but farmers believed today that it would straighten up. A heavy rain accompanied the storm.

## TWO BOYS PUT IN JAIL ON VAGRANCY CHARGE

James Teeters and Virgil Land  
Fined \$10 and Costs Few Hours  
After They Finished Work

MAYOR WOULDN'T BE LENIENT.

Three young men, James Teeters, Virgil Land and William Hendricks were placed in jail late yesterday afternoon, the first two being charged with vagrancy and the last for shooting a gun within the city limits. Teeters and Land were each fined ten dollars and costs, and Hendricks was to be given a hearing some time today.

The two charged with vagrancy were said to be employed up until yesterday at noon. Land stating that he had assisted in unloading a car load of coal in the morning, and Teeters was employed in a local factory, but the officers and mayor decided that they were loafers and sentenced them to jail to live on the county for twenty days. Land handled 40 tons of coal in a day and a half and took a half day off, expecting to return to work this morning.

This morning, Roy Waggoner, manager of the Park Furniture factory, offered to give all three boys employment if the mayor would be lenient and allow their freedom, but this he refused to do. Another local man made the same offer, which was also refused.

## WILL PREPARE FOR THE ENCAMPMENT

Uniform Rank, Knights of Pythias,  
Will Meet Tomorrow Night to  
Make Arrangements

CLEVELAND WEEK OF JULY 26

The Uniform Rank, Knights of Pythias, will meet tomorrow night at the K. of P. building to make arrangements for the trip to Cleveland, Ohio, to attend the national encampment which will be held the week of July 26. Capt. George Coons has received word that negotiations have been completed for a rate of one and one-third for the round trip. A special train carrying the Indiana brigade will leave Indianapolis over the Big Four at 9 a. m. Sunday, July 25. Ample accommodations will be provided, including one section of a Pullman for each two Knights.

Many members of the Rushville company are planning to go and take their wives. Some are planning to motor to Cleveland. It is necessary to have certificates, which are not in the hands of Capt. Coons, in order to get the reduction in fare. Cleveland will be thrown open to the Knights and extensive arrangements have been made for entertainment, including side trips to Canada and Niagara Falls. The Indiana special will stop at Marion, O., for an hour on the way over so Knights may visit Senator Harding, republican candidate for president.

The meeting tomorrow night will be followed by a lunch.

## OLD FAVORITES ARE RETURNING

Mabel Quam Stevens, Celebrated  
Woman Lecturer and Swiss  
Yodlers, to be at Chautauqua

BOTH HERE TUESDAY, AUG. 10

Big Day's Program Will be Com-  
pleted With Lecture by Dr. C.  
A. Tindle, Famous Preacher

Monday and Tuesday of the annual Rush county chautauqua, which will open at the city park Sunday, August 8, will offer especially attractive programs, with the Hadley concert company, which opens the assembly with two programs, giving two concerts the second day. Prof. George D. Wham, a county institute lecturer, will speak in the afternoon of that day.

On Tuesday the Swiss Yodlers, who need no introduction here, will appear on both the afternoon and evening programs and Dr. Charles A. Tindle, a negro preacher, will speak in the afternoon and Mabel Quam Stevens in the evening.

Mrs. Stevens is another who needs no introduction to a Rush county audience for she has lectured before at the chautauqua, and to say that she pleased the audience would be putting it very mildly.

In Mrs. Stevens, lecturer on Biblical themes, there is presented to Chautauqua patrons a woman who has been termed the greatest orator of her sex in America. "She is a woman of remarkable versatility and most persuasive eloquence," said Senator James E. Watson, after hearing her a number of times at Winona Lake, during the Chautauqua season of 1918. "She has a most intimate knowledge of the Bible and her exposition of Scriptural texts is always interesting." Mrs. Stevens is so forceful in her speaking, so convincing in her arguments and so humble and sympathetic in her manner that all her audiences have been charmed," said the Elgin (Nebr.) Review, in reporting a series of meetings that she conducted. These are but typical comments out of many. Wherever she has appeared she has won the hearts of all her hearers.

Mrs. Stevens fills a real need. There has been a big demand for a lecturer who can dramatize the time-old truths of Scripture and give them a modern application—who can tell "the old, old story" with ever new effectiveness. Such a lecturer is Mrs. Stevens.

The greatest negro preacher in the world, and one of the really great preachers of any race in America, Dr. Charles A. Tindle, pastor of East Calvary church of Philadelphia, is scheduled to speak at Chautauqua. This distinguished negro preacher has challenged the attention of America by the masterful manner in which he has handled the influx of some 40,000 negroes into Philadelphia, and the thoroughness of his preparation to make them thoroughly American, by the old fashioned process of encouragement, clean living, religion, faith and the opportunity of earning an honest dollar and possessing it undisturbed after it is earned.

## ASSEMBLY WELL ATTENDED

Carthage Chautauqua Opens Tues-  
day and Closes Thursday

The Carthage chautauqua, which began yesterday under a tent in that town, is drawing big crowds, according to reports from there today. The chautauqua this year was reduced from a five day meeting to only three days, and will close on Thursday night. All of the programs are said to be unusually good and contain a variance of entertainments, including lectures, instrumental and vocal music and special entertaining features. Coming as it did, in the midst of the harvest season, it was expected that the attendance would be reduced, but so far all sessions have been well attended, and the tent has been filled at the night sessions.

## HEAVY RAINS TO DELAY THRESHING

Wheat Already Contained High Per-  
cent of Moisture and Needed  
Lots of Sunshine

CORN PROSPECTS ARE GOOD

Indiana Crop Report Forecasts Big  
Decrease in Yields of Both  
Corn and Wheat

The heavy rains throughout the county last night will delay wheat threshing according to farmers today, and the high wind also blew down some of the corn, but this damage will not be great, it is believed.

The wheat was already wet and needed several days of sunshine before it was threshed, and the soaking rains last night will serve to postpone threshing even longer. The first wheat delivered to a Rushville elevator yesterday graded low because of the high percent of moisture, and farmers were advised then by elevator men not to thresh to soon if they wanted to get the best possible grade on their wheat.

Although the corn crop in Indiana is estimated to be six million bushels short of last year, even though the acreage is only one percent less, according to the state official crop report issued today, Rush county farmers have high hopes of at least an average corn yield this year, in spite of the fact that the crop got a very late start, due to the delay in planting on account of the bad weather.

The Indiana crop report says the estimated wheat crop for this year is more than twenty-five million bushels less than last year and rye shows a falling off of 262,000 bushels. Oats show an increase of 1,612,000 bushels. The report follows in part:

In some counties the corn acreage has been considerably increased especially in the northern part of the State, where many wheat fields were abandoned late in May. Some of the southern counties, however, show quite a large decrease; this is due principally to floods and rains during May and June. The total for the State amounts to 4,702,000 acres and is 1 percent less than last year.

The condition for the State is 84 percent of normal and indicates a production of 169,836,000 bushels compared with 175,750,000 bushels harvested last year. There is a good stand of thrifty plants and the color is good with practically all fields free of weeds. With continued favorable weather conditions the crop should show quite an improvement by August 1. In a few counties hail and insects have damaged the crop and diseases were reported in a few localities.

Winter wheat condition is not as good as last month by 1 point, being 60 percent of normal and indicating a total production of 20,664,000 bushels, compared with 45,792,000 bushels harvested last year.

In the north part of the State the crop is practically a failure in some localities due principally to the ravages of the Hessian fly, although considerable of it was killed by sleet storms in the early spring. Practically all the diseases and insects known to damage the wheat crop have been at work this year.

Last year's wheat still on farms amounts to 1,840,000 bushels.

Rye shows an increase of 2 points in condition over last month, being 87 percent of normal. A total production of 5,058,000 bushels is indicated from these figures and compares with 5,320,000 bushels harvested last year.

The condition of oats declined 2 points during the month and now stands at 82 percent of normal, on which a total production of 61,837,000 bushels is indicated. Last year there was harvested 60,225,000 bushels in the State. As yet there has been no heat damage and practically all fields are headed out, but generally on very short straw. The early sown oats are generally much better than the late sown and with continued favorable weather a larger crop than is indicated at this time should be harvested.

## GLASS LODGES IN BAD EYE

Although Injured, Frank Hobart  
Escapes Losing Sight Entirely

Frank Hobart, a young man employed at the Charles E. Francis company factory, suffered a severe injury to his left eye yesterday when an electric light globe exploded in his face as he was turning it off, but fortunately it was the eye, the sight of which he had already lost in which the glass lodged. He was taken to Dr. E. I. Woodson's office where he was given relief and the small particles of glass were removed from his eye. It was regarded as very fortunate that no glass got in the eye in which the sight is not destroyed. The injury caused him much pain and this morning he was reported to be improving.

## THREE BUSINESS ROOMS ARE SOLD

Mr. and Mrs. George Wingerter Buy  
Building East of Old Windsor  
Hotel of Ray Keyes

MOORMAN GARAGE IS SOLD

Several pieces of property have been sold here, including three business properties which have just changed hands.

Mr. and Mrs. George Wingerter this morning bought the two business rooms located just east of the Windsor hotel building in West Second street, from Ray Keyes of Boswell, Ind., formerly of this city. Mr. Keyes was agent here for the Ford automobiles, and recently sold the hotel building which he used as a garage, and in selling the two business rooms, closed his interests in this city. Mr. and Mrs. Wingerter renewed the leases to the present occupants in the business rooms, and will continue to rent them.

The two rooms are occupied by the Schlosser Brothers Creamery Co. and Alva Osborn, tailor.

Ora Montgomery of this city has purchased the garage owned by Bert Moorman in South Main street, and will take charge of the business at once. Mr. Montgomery also has purchased the residential property of Howard Barrett, 420 North Morgan street, where he will move in a few weeks. The consideration of the residential property was said to be \$4,500.

## AWAIT ACTION OF STATE LEGISLATURE

Jackson Township Officials Not to  
Award School Contract Pending  
Action on Tax Increases

THIS WILL AFFECT FINANCES

The contract for the construction of the new consolidated school building in Jackson township is being held up by the township trustees Alva Newhouse, and the advisory board, pending the action of the special session of the state legislature, which will make a definite decision in all probability about the horizontal increases, as imposed upon the taxpayers. If the horizontal increases are not legalized the township will be seriously handicapped by the lack of funds.

The bids were opened here Monday afternoon, at which time three bids were submitted for the general construction of the building, two for plumbing, heating and ventilating, and one for the electrical installation.

When the bids were opened it was found that the highest bid was for \$74,000 on construction and the lowest for \$54,000, or a difference in price of a little more than \$20,000. At first the delay in awarding the contract was thought to be due to the difference in prices submitted, but today it was learned that it was deemed best to await the meeting of the legislature to decide upon the horizontal increases.

## SPECIAL TAXES DUE THIS MONTH

Millions of Dollars Will be Collected  
by Government From Many  
Different Sources

ARE DUE BEFORE JULY 31

Theaters, Museums, Circuses, Pawn-  
brokers, Tobacco, Riding Acad-  
emies and Others Included

Millions of dollars will be added to the revenues of the government this month from special taxes due on or before July 31, 1920. The list includes the tax on brokers, pawnbrokers, museums, theaters and concert halls, circuses, bowling alleys, shooting galleries riding academies, tobacco, buses, etc.

Forms for filing returns are available at offices of collectors of internal revenue and branch offices. Heavy penalties ranging from a fine not to exceed \$1,000 for failure, and not to exceed \$10,000 or one year's imprisonment, or both for willful refusal to make return and pay the tax on time are prescribed by the current revenue act.

Returns of the capital stock tax also must be filed on or before July 31.

To facilitate prompt collection and as an aid to the taxpayer as well as the government, the Bureau has suggested that filing of the return be accompanied by payment of the amount of tax due. This method is appealing to corporations, as it lessens liability to penalty.

The capital stock tax applies to every corporation carrying on or doing business in the United States. The tax on domestic corporations is \$1 for each \$1,000 of so much of the fair average value of its capital stock for the preceding year ended June 30 as is in excess of \$5,000. Foreign corporations are required to pay a tax of \$1 for each \$1,000 of the average amount of its capital employed in the transaction of its business in the United States during the preceding year ended June 30, without the benefit of the \$5,000 deduction.

The tax on brokers whose business it is to negotiate purchases or sales of stock, bonds, exchanges, bullion, coined money, promissory

## DELEGATIONS VISIT CINCINNATI TODAY

Rushville and Connersville Men  
Plead For Change in Mail  
Service on C. I. & W.

57 FIRMS SIGN PETITION HERE

Delegations from Rushville and Connersville motored to Cincinnati today to attempt to have the mail service on the C. I. & W. railroad changed so that the two new through mail trains added last Sunday will carry mail for these two cities.

The Rushville party was composed of Earl H. Payne, president of the Rotary club, and R. L. Tompkins, chairman of the public questions committee of the club, and they carried with them a petition signed by fifty-seven Rushville retail business men and manufacturers, urging that the 5:35 a. m. east-bound passenger and the 1:18 west-bound passenger carry mail for Rushville. The change in the morning mail from the west would enable business men to get their mail by seven o'clock, whereas the mail from the west does not reach Rushville until 7:05 o'clock and is not all distributed before eight o'clock. The rural mail carriers are not able to leave the postoffice before 8:30 a. m.

The Connersville delegation included Emery Huston, vice-president of the Lexington Motor company; H. A. Wainwright, vice president of the Wainwright corporation, Postmaster Doenges and W. C. Sutter, secretary of the Chamber of Commerce. They expected to make their complaint to John Clark, superintendent of mails.

**COLORED WOMAN DIES**  
Mrs. Carrie Fred, a colored woman of this city, expired late yesterday afternoon at the home of her daughter, Mrs. George Easley, Jr., 631 East Seventh street, after a long illness of cancer. Mrs. Fred was the widow of Caesar H. Fred, and was approximately 70 years old.

**Scientists Free  
Castor Oil From  
Nauseating Taste**  
**Remarkable Process Improves Fam-  
ous Old Family  
Remedy**

Nobody ever dreamed that castor oil could be made tasteless. But the chemists of Spencer Kellogg & Sons, Inc., one of the largest manufacturers of castor oil, tackled the problem, and succeeded in perfecting a process by which all nauseating taste is removed. Nothing is put in to disguise the taste. Strength and purity remain the same—a 100% pure castor oil. Curative and soothing qualities remain the same. It's the same good old-fashioned castor oil that your doctor always prescribes, with the disagreeable taste removed. Children take Kellogg's Tasteless Castor Oil without knowing it is castor oil. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c and 65c. (Adv)

WITH 8000 RECEIPTS**  
**Three Mile Stretch Near Carthage  
Built Since April 1**

The Noah Reddick highway in Ripley township is now nearing completion, and work will be completed some time this week, as the board of reviewers will begin their inspection of the road tomorrow. The road is located just south of Carthage and goes east for three miles from the end of the cement pavement south of Carthage, to the Dalway farm. Construction was begun on this road on April first, and is a gravel highway. The contract was awarded to Charles Reddick of Greensburg.

**PLAN TO GO TO MARION, O.**  
**Few Local Republicans to Attend  
Notification Ceremonies**

A few republicans from this county are planning to go to Marion, Ohio, July 22 when Senator Warren G. Harding will be notified formally of his nomination for president. They will go with the Indianapolis delegation which has chartered two special cars for the trip.

Two chair cars will be attached to the regular Big Four train leaving Indianapolis at 7 a. m. and the connections are such that the delegation can return to Indianapolis the same day. Fred Shortemeier, secretary of the state republican committee, has made all the arrangements for the visit to Marion and is urging republicans to go.

#### Whales' Ages.

Scientists say that an ordinary whale lives to the age of 500 years, while some whales have been caught whose appearance denotes them to have lived as many as 1,000 years.

## TRAVEL ON LAKES BREAKS RECORDS

Dozens of Steamers Jammed to the Gunwales With Tourists Ply Way up and Down Lakes

### PEOPLE SWARM TO RESORTS.

Present Great Popularity of Lakes is Attributed to The Increased Earnings of Average Person

Cleveland, Ohio., July 14—Travel on the great lakes this summer is surpassing all previous records. Dozens of steamers, jammed to the gunwales with tourists, ply their way up and down and across the lakes to scores of islands, beaches and summer resorts, most of them already a swarm with cottagers and those on vacation bent.

By the end of the rather brief lake travel season, close to 500,000 persons will have answered to the lure of the lake, according to H. A. Semler, manager of the Akers, Folkman, Lawrence company, water travel agents here. His figures are based on the number of lake steamers available, their capacity and the reservations made.

Semler reported a ceaseless stream of men, women and children flowing in on the offices of all lake navigation companies. They come from all parts of the country and from many parts of the world. The confirmed globe-trotter, he reports, has turned from European travel to exploring the many summer resorts dotting and bordering the lakes. Persons who heretofore spent their moments of leisure and recreation in the mountains or at the seashore, are clamoring at the various lake ports for steamer accommodations.

Special lake trips are widely popular. Trips of from one to two weeks in length are attracting the greatest number. The cost of travel has gone up about 25 percent over last year. A week's trip can be made at a trifle over an average of \$10 per day per person.

Several companies offer a week's tour of the lakes for \$72.50 per person. Their boats touch a dozen ports, with brief stopovers at points notable for their historical or recreational attractions. One Canadian line offers a trip 1,000 miles in length with stops at the principal Canadian cities on the lakes. Another specializes in trips of 1,600 miles.

Semler attributes the present great popularity of the lakes to the increased earnings of the average person, the overcrowding of ocean liners, deferred vacations, a natural swing from land to lake resorts and the attractiveness, comforts and reasonable cost of lake tours.

### HEAVY RAINS TO DELAY THRESHING

Continued from Page One  
The barley condition declined 1 point during the month and is now 82 percent of normal. A total production of 1,504,000 bushels is indicated, compared with 1,430,000 is indicated, compared with 1,430,000 bushels harvested last year.

The acreage of white potatoes is 10 percent less than last year and the condition is 86 percent of normal. On these figures a total production of 7,353,000 bushels is indicated and compares with 4,400,000 bushels harvested last year.

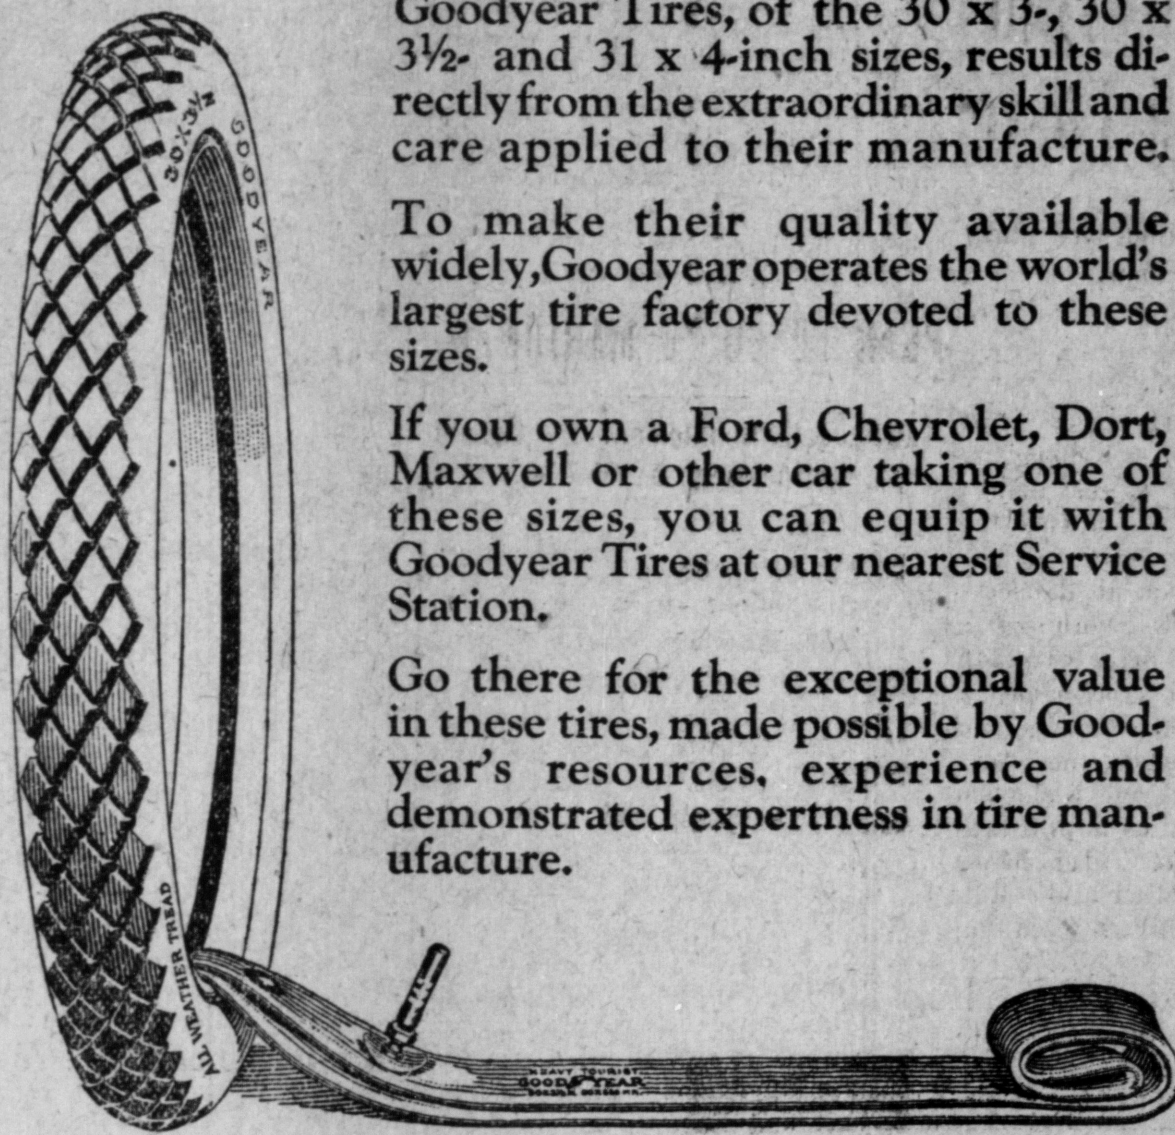

The condition of all hay crops shows a decline of 4 points during the month and now stands at 82 percent of normal. On these figures a total production of 2,832,000 tons is indicated, compared with 3,080,000 tons harvested last year. The condition figures on the various kinds of hay are: clover, 80 percent; timothy, 82 percent; alfalfa, 89 percent; millet, 81 percent; cowpeas, 87 percent and soy beans, 87 percent.

Apples show a decline of 12 points over the June report; peaches increased 1 point and pears remain the same. On these figures there is indicated a total production of 5,552,000 bushels of apples, 902,000 bushels of peaches and 607,000 bushels of pears. Grapes show a condition of 89 percent of normal, which is considerably above the average, and blackberries and raspberries show a condition of 91 percent of normal, also somewhat above the average.

### ANNUAL M. E. MEETING

Indianapolis, Ind., July 14—Methodist Episcopal churches of Indiana held their annual meeting here today. District superintendents, two representative pastors and laymen from nearly every district in the state attended.

## Goodyear Skill—as Represented in Tires for Small Cars

The high relative value built into Goodyear Tires, of the 30 x 3-1/2, 30 x 3-1/2 and 31 x 4-inch sizes, results directly from the extraordinary skill and care applied to their manufacture.

To make their quality available widely, Goodyear operates the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at our nearest Service Station.

Go there for the exceptional value in these tires, made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread, \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread, \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size in waterproof bag \$4.50

### Amusements

"Let's be Fashionable"—Princess

Douglas MacLean and Doris May will be the attraction at the Princess Theatre today in their latest screen comedy, "Let's Be Fashionable". This picture is declared to be fully as hilarious as the three previous releases of these youthful co-stars, who have proven extremely popular everywhere.

"Let's Be Fashionable", is the story of a young married pair with limited means and their efforts to keep up with the social swim at a swell summer resort. To be in style both secure themselves "affinities" and get into all sorts of humorous complications. When they have at last extricated themselves from the mess, they decide that it is better to be happy than to be fashionable.

Wade Boteler, Norris Johnson, and George Webb are included in the supporting cast. The story is the work of Mildred Considine and was adapted for the screen by Luther Reed. Lloyd Ingraham directed the picture for Thomas H. Ince. It is a Paramount Artercraft release.

### Foch Day

Tomorrow will be the second anniversary of that great offensive which injected American spirit and initiative into the world war and was the dominant factor in the defeat of the Huns. It was in May, just two months before the historic drive to save the world from German domination, that Foch took command of the allied troops. Those in Europe who were familiar with the situation knew that he was quietly making his plans.

Some of us were impatient for results, but the greatest war strategist the world has ever produced knew what he was about. Germany, like a great snake, was coiling itself around Europe, and many felt that when she again started towards Paris she would be prepared for any emergency. The preparation of forty years was to count for nothing in four months and why? Not because the allies were heaping victory on victory—not because the outlook was dark for Germany—but because Foch was in supreme command.

To the people of the world those days in early July looked black and threatening. Yet Foch, when asked what he thought of the situation said: "I like my part better, and may America always play the role which she can serenely say is the better part."

The 15th of July was a glorious and solemn day for civilization; solemn because it was to bind us to interests other than our own; impose obligations because others had done so much for us. They had borne the brunt of the fighting and we were to reap more than our share of peace and prosperity. We were to have more of our sons returned to us because France and England had protected the United States. Let us never forget that. We have not paid our debt to France, and as each succeeding 15th day of July comes around let us with one accord remember Foch, the greatest of generals, who preserved humanity to each of us.

### Womanly Charms

Think a little, and you will call to mind some young lady whose sweetness is a marvel to her friends.

Part of that disposition is hereditary, but much of it is the result of environment and early training.

Some mothers have a rare talent in the training of children. They do not rule by threats and spans, but from early childhood the pride of the little one is brought to the fore.

As early as it can understand, it is taught to be gentle and sweet and to take pride in excelling in those womanly qualities which appeal so strongly to the human race.

As a child is taught in its infancy, so will it invariably be in maturity.

If all mothers would bear this fact constantly in mind, there would be more of that innate sweetness which is so charming in the female sex, and which appeals so strongly to manhood in all stations of life.

Life holds a barrel of joy for you if you want it. But it expects you to pull the plug out of the bung hole.

The young man with a multitude has become nothing but a jumble.

## STOP ITCHING SKIN

Zemo, the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin.

Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear.

Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

# How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

II

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

III

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

IV

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

## SUPER-ROUGH STUFF GOT GEORGE IN BAD

Winnepeg, Man., July 14—George Locke, returned soldier, had been a persistent wooer of Miss Myra Fidler of this city, but had been unable to induce the young lady to "set the date". George had almost given up hope when he read a novel by a Spanish author advocating the "treat 'em rough" method and immediately prepared to carry out the author's suggestions.

A few days later George was arrested for shooting Miss Fidler through one thigh and attempting suicide. During his convalescence at a local hospital Miss Fidler was a constant attendant upon him. At Locke's trial she said: "I didn't love him well enough before he shot me, to marry him, but I do now."

All was in readiness for the wedding in case Locke was freed, but the judge sentenced him to three years at Stoney Mountain prison.

## BILL TO ESTABLISH A WRIGHT MEMORIAL

Representative Symons of Henry  
County Introduces Measure in  
The Legislature

### WAS BORN NEAR COUNTY LINE

Luther F. Symons of Lewisville, Henry county representative in the legislature, has introduced a bill in the special session of the legislature, providing for a memorial for Wilbur Wright, who was born in Liberty township, Henry county, just north of the Rush-Henry county line.

The bill is similar to that passed by both houses at the last regular session of the legislature, but did not receive the governor's signature.

The bill would appropriate the sum of \$2,000 towards the purchase of a small tract of ground at the birth place of Wilbur Wright, co-inventor of the airplane, in Liberty township, Henry county. Under the provisions of the bill a similar sum would be raised by the Henry County Historical society and a commission of three is provided to arrange for the purchase. Two of the three members would be named from a list submitted by the Historical society.

The Historical society has long demanded that fitting recognition be accorded Wilbur Wright, either by the state or county, and Representative Symons worked hard for the success of the bill at the regular session. If passed both the house and senate with only dissenting vote. Mr Symons believes it will pass this time, unless the press of other important legislation smother the bill in committee.

**JOHN H. PACKER**, well known electrical engineer, of Liberty, Mo., who says that to look at him today no one would ever take him to be the same man he was before Tanlac restored his health. Has gained forty-four pounds.

"For two years previous to the time I began taking Tanlac, I lived principally on a raw-egg diet. During this time I was laid up in the hospital for five months and practically no hope was held out for my recovery. I don't suppose any man had a worse case of stomach trouble than I did, in fact they said I could not live.

"Tanlac did not seem to help me much at first, and I had almost made up my mind to give it up, but if I had given it up it would have been the mistake of my life. I stuck to it for a fair test and am thankful that I did, for after finishing my fourth bottle my appetite was better and I noticed myself improving.

"This encouraged me to keep on taking it and in two months I was able to eat a good square meal and digest it as good as anybody. Then it wasn't long until I got so I could go back to my work and at the time I had finished my last bottle, I found I had actually gained forty-four pounds in weight.

"To look at me today no one would ever take me to be the same man I was when I began taking Tanlac."

The above remarkable statement was made recently by John H. Packer, well known electrical engineer of Liberty, Missouri.

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty.—(Adv.)

## BRITISH WILL TRY TO WIN SILVER CUP

Tomorrow The 14th Race to Win the  
Emblem of Sea Prowess Will be  
Started if Weather Permits

### U. S. HAD IT FOR 69 YEARS.

Tarnished With Age a Silver Cup  
Worth \$500 Rests in the Vault of  
The New York Yacht Club

(By United Press.)

New York, July 14.—Tarnished with age, dust-filled from disuse, a silver cup worth \$500 when it was cast in 1851 rests in the vault of the New York Yacht Club. Tomorrow the fourteenth race for its title will be started, weather permitting.

For the possession of that cup, hardly worth twice its original cost, close to six million dollars has been spent and for it the best skill and science of the marine building world have been expended for 69 years.

"America's cup", emblematic of the supremacy of the seas, has been the coveted trophy of yachtsmen since before the Civil War, since the days when pack trails provided the only avenues into the great West and since the days before the transatlantic cables connected the two worlds.

In all that time, against the challenges of the world, the cup has remained in America. In a pawnshop the cup wouldn't draw enough to pay one crew in a trial race but the ideals which it represents, the traditions of the sea, gives it a sentimental value and a place in national affection that makes it worth the fortunes spent on it and will justify the outlay of millions in the future for its defence.

After the cup was won in 1851 by the historic America it remained out of competition for 15 years when the New York Yacht Club set it up before the world as a challenge trophy.

In the fall of 1868, James Asbury, a wealthy Britisher who owned the Cambria, challenged the cup holders for a race. Correspondence was carried on for two years but it had no results since Asbury had no club affiliations and the cup holders were not forced to defend against private challenges.

However, in July, 1870, Asbury sailed the Cabria over and a race was arranged with 23 American Yachts against her. The course was off Staten Island in the upper bay, through the Narrows, down the bay to Sandy Hook lightship and return, a distance of 38 nautical miles.

The race was won by the Magic with Idler second, Dauntless third, America fourth, and Cambria the challenger eighth.

Asbury protested the race on numerous grounds but they were all overruled.

Asbury then gave up his quest for the cup and the Royal Canadian Yacht Club schooner, the Countess, of Dufferin. The defender, the Madeline, defeated the challenger.

Canada tried again in 1881 when the Bay of Quinta Club of Ontario set down the sloop Atlanta and she was in turn beaten by the Mischief.

Four years elapsed and the matches were resumed with a series of annual races starting in 1885.

The defender Puritan defeated the Genesta in 1885 and the challenger Galatea was beaten by the defender Mayflower in 1886. The following year the defender Volunteer again won against the Thistle.

In 1893 Lord Dunraven set out to bring the cup back to England. He sent over the Valkyrie II. The cup was defended successfully by Vigilant, the first of the line of Herreshoff sloops which are represented again this year by Resolute, the defender.

Dunraven tried his luck again in 1895 with Valkyrie III. The first race of the series was won by the defender in a light wind. In the second race, Defender was fouled by the Challenger and lost the race with a broken wing.

The first of his family of Shamrocks appeared in 1899 but she was defeated by Columbia in three straight races.

Shamrock II came back in 1901 to meet a sloop built and designed by Herreshoff, the Constitution. But she failed to make good in the trials and Columbia was sent out again to meet the challenger. She defended the cup successfully winning by a margin of one victory helped by the time handicap which the Lipton yacht was forced to concede.

In 1903, Shamrock III was brought over by Lipton. The Reliance was chosen as the defender and she demonstrated her superiority over the challenger in a decisive manner.

In 1914, Shamrock IV, this year's challenger, was the challenger. She was on the water when war was declared and had to travel 1,000 miles out of her course to dodge submarines. Upon her arrival here she was hauled out and placed in a hermetically sealed enclosure where she remained for five years, narrowly missing destruction by a fire at the Jacobs shipyards early this spring.

The Resolute, a Herreshoff boat; Vanitie, designed by William Gardner and Defiance, designed by Geo. Owen, met in a series of trial races which determined the unfitness of Defiance and left the committee in doubt as to Resolute and Vanitie.

In the trial races this summer, Resolute again defeated Vanitie in the trials and she was finally named as the defender.

This brings the history of the races up to the present time and makes the way clear for the next chapter, the races off Sandy Hook starting tomorrow between Shamrock IV and Resolute, the fourteenth time the America's Cup has been fought for.

DISTRIBUTOR BASS AND PERCH. Indianapolis, Ind., July 14.—Forty-one thousand large mouth No. 1 bass fingerlings and 3,500 No. 1 yellow perch fingerlings were distributed during June from the Wawasee and Tri-lakes hatcheries operated by the department of conservation, a report of George N. Mannfeld, superintendent of fisheries and game, shows. The fingerlings were planted in waters in eight Indiana counties and in each case a skilled fish culturist supervised the work. The Riverside hatchery so far this season has planted 269,000 advanced bass fry in Indiana.

# "and he gave it dead away"

IT'S REALLY surprising.  
THE MONEY you save.  
BY ASKING questions.  
I FOUND that the maker,  
OF A hair restorer.  
WAS BALD as a coot,  
SO I passed that up.  
AND A bird who came,  
TO SELL oil stock.  
HAD HIS own cash.  
IN LIBERTY Bonds.  
SO I ducked again.  
AND I asked a clerk,  
FOR THE best cigarettes,  
AND HE reached around,  
FOR A fancy box.  
AND I knew I was in  
FOR THE same old line,  
SO I asked him this.  
"WOULD YOU smoke one of 'em,  
IF I bought a box?"  
AND THEN he smiled,  
LIKE A regular guy.  
AND SAID "No thanks,  
I'LL SMOKE my own."  
AND I got wise.  
AND ASKED him then,  
WHAT BRAND he smoked.  
AND HE showed me.  
AND THEN he said,  
"THEY SATISFY."  
AND B'GOSH, he's right.

SURE they satisfy. Chesterfields have "body"—that's the reason. Body enough to satisfy a cigar smoker. And yet Chesterfields are mild. Impossible? That's it exactly—Chesterfields have accomplished the impossible. They satisfy and yet they're mild.

## INTERESTING FACTS

that should appeal to all prospective Phonograph buyers and present owners as well:

1. Cabinet Construction—Thickness of Walls—Finish, Etc.
2. Tone Chamber—Construction—Material Used, Etc.
3. Tone Arm.
4. Sound Box or Reproducer
5. Positive Tone Control and Patents Covering Same.
6. Automatic Stop.
7. Motor—Quality of Steel—Bronze Bushings—Springs—Bearings—Governors and Oiling System used.

8. Accessibility of parts and location of same.
9. Methods of handling and filing records to insure long life.
10. Reliability and standing of the Manufacturer, Etc.

Here are ten (10) of the most vital parts of the Phonograph and points which every owner and every prospective owner of a phonograph should learn thoroughly before purchasing a phonograph of any kind, or make.

If you were going to purchase an automobile you would certainly demand all of these facts and more, so why not demand them of your local phonograph dealer.

During the months of July and August, our Phonograph SERVICE Department will be at your disposal. We will be glad to inform you upon any phonograph subject that you may wish to learn about. Our services are free for the asking.

We will make practical demonstrations—showing parts, material used, etc. It will be an interesting demonstration for you to witness, whether you have a phonograph or not.

We cordially invite you to call at our salesroom any time. Upon request we will mail information and literature covering any of the ten vital phonograph points.

# SOCIETY

Mrs. Wayne Werking and Mrs. Carl Ging and family of Raleigh were the dinner guests of Mrs. Irvin Walker of Gings today.

Mrs. J. M. Amos will entertain the members of the Happy-Go-Lucky club tomorrow afternoon at her home south of the city.

Mrs. Malinda Young will be hostess for the members of the Industrial club Thursday afternoon at her home in West Seventh street. A large attendance is urged at this meeting.

The Marian Social Circle of the St. Mary's Catholic church will be entertained tomorrow afternoon at the home of Mrs. Anthony Schlichte in West First street. The assisting hostess will be Mrs. Wade Sherman.

Mrs. Will Frazee entertained the members of the Tuesday Afternoon Bridge club yesterday afternoon at her home in West Third street. After an afternoon of cards, the guests enjoyed delicious refreshments.

Friends of Mrs. Charles Hinkle delightfully surprised her last evening at her home in West Fifth street, honoring her birthday anniversary. After the delicious pitch-in dinner which was served the guests spent the remainder of the evening socially.

Mr. and Mrs. A. T. Mahin and daughter, Miss Margaret, Henry McGuire of this city and Mr. and Mrs. William McGuire of Indianapolis, were delightfully entertained Sunday at the home of Mr. and Mrs. Max Mahin, southeast of Connersville.

The Invitational dance given last evening in the Modern Woodman hall was enjoyed by about thirty couples. The out-of-town guests were from Cambridge, Raleigh, Falmouth, Mays, Knightstown and Chicago. The splendid dance music was furnished by Mrs. Francis Knecht and Fred McGinnis of this city.

Mrs. Cornelia Lyons of this city and Mrs. Pheobe Philips of Arlington were among the guests who attended the reception given for the department president of the W. R. C. and the commander of the G. A. R., which was held in the state house in Indianapolis this afternoon.

Mrs. Earl Harton and Mrs. Harry McManus entertained yesterday afternoon at the home of Mrs. McManus in North Main street with a miscellaneous shower in honor of Miss Ruth Spivey, whose marriage to Walter Thomas Ray of Connersville will take place the later part of this month.

Mrs. George Helm entertained with a prettily appointed six o'clock dinner party last evening at her home in West Third street. The table was adorned with bouquets of summer flowers and covers were laid for eighteen guests. Mrs. Helm will be hostess again this evening for a six o'clock dinner party when she will entertain eighteen more ladies.

Mr. and Mrs. Dora Hilligoss living southwest of Rushville, entertained Senator Colburn of Louisville, Ky., and Mr. and Mrs. Charles Brown of Charleston, West Virginia, at their home Sunday. Mr. and Mrs. Hilligoss entertained at dinner Sunday evening, Mr. and Mrs. O. P. Wamsley and daughter Katherine

and Mr. and Mrs. Elsie Hilligoss, in addition to the honored guests from a distance.

Mr. and Mrs. George Erhart and family had as their dinner guests Sunday Mr. and Mrs. Harry Wright of Connersville and Mr. and Mrs. William Kiser of Sexton.

Mr. and Mrs. Jake Clifton entertained with a prettily appointed dinner party at their home in Gings Tuesday evening. Covers were laid for Mr. and Mrs. Kanerda Jones and daughters Maxine and Pauline, Mr. and Mrs. Carroll Clifton and daughter Emogene and Clennis Clifton. The remainder of the evening was enjoyed with music on the Edison.

Miss Gladys Wallace was hostess for the members of the Psi Iota Xi sorority yesterday afternoon at her home in North Perkins street. The party was in the form of a shower honoring Miss Jeanette Clark, who will be united in marriage to Floyd Kirklin of Muncie, Thursday. The thirty guests present enjoyed the afternoon playing Bridge. Among the guests were Mrs. Miller Hamilton of Washington, D. C., Mrs. Allen Messick of Marion, Ind., and Mrs. George DeHority of Elwood. A dainty luncheon was served at the close of the card games. The assisting hostesses were the Misses Mary Jane Carr and Leah Flint.

## IS A MINATURE ART MODEL

Recent Acquisition to State Museum Work of John Q. Adams

Indianapolis, Ind., July 14—A recent acquisition to the state museum maintained under the Department of Conservation, is a miniature art model executed in plaster, carved wood, paints and oil of the pioneer homestead of John McCormick, first white settler of Indianapolis.

The miniature is the work of John Q. Adams, a metal pattern maker, who studied 10 years under Rudolph Schwartz, sculptor, and executor of the groups on the Soldiers' and Sailors' Monument. It proved one of the fascinating features of the Indianapolis centennial in June and is expected to prove interesting to students throughout the state. It is a faithful reproduction of the log cabin which John McCormick established on the east bank of White river just north of what is now Washington street, and a true replica of the topography of Indiana in 1820 together with the state's frontier period.

## VISITS GLENWOOD TODAY

Capt. Tench Continues Canvass For Salvation Army

The motor truck gathering contributions for the Salvation Army sale next week in the interest of the Home Service campaign, will make trip to Carthage and vicinity tomorrow, Capt. Tench announced today. Substantial gifts of all sorts were received by Capt. Tench yesterday and he was hopeful of realizing well on the trip to Glenwood today.

If a room can be obtained, it will be opened Friday to receive contributions which have been promised from many parts of the county.

## TO ATTACK POLE ARMY

London, July 14—Lithuanian troops are reported mobilizing for an attack on the Poles, in accordance with an agreement signed by the Russian Soviet government, according to newspaper dispatches from Kovono. The Polish troops have retreated to a new line of defense, destroying communications in their retreat.

## BRITISHER EXECUTED

Washington July 14—John Freedman, a British suspect, was executed and several Americans escaped death at the hands of anarchists of the Russian Bolsheviks, known as "Red Black Guards", during a reign of terror at Nechovoesk at Siberia, according to reports to the state department from the U. S. consul at Vladivostok.

## DOCTOR MOVES OFFICE

Dr. D. H. Dean has moved his offices from the Poundstone building, at the corner of Morgan and Third Streets, to the north room in the Logan building, Main and Fourth streets. The room was formerly occupied by Dr. E. C. Eurt, a dentist, who moved recently to Gary, Ind., to engage in his practice.

Lack Library Service. There are in the United States, it is said, 60,000,000 persons who have limited or no library service.

## LABOR SITUATION IN JAPAN QUIT SERIOUS

Government Taking Steps to Combat the Evils of Unemployment Which Has Begun to Set in

## SLUMP HITS INDUSTRIES

Tokyo, (By Mail)—The labor situation in Japan is becoming quite serious owing to the closing of many factories on account of the great slump in prices. A few months ago, when the country was still riding high on the wave of prosperity, labor was short and, as a consequence workers were able to secure advances in wages and other advantages. Now the situation has changed entirely, and the Government is taking steps to combat the evils of unemployment which have already begun to set in.

The slump has hit the weaving industries particularly badly. Thus the Yenshu Textile Company threw 12,000 men out of work recently, and many other factories have either discharged their men absolutely, or have laid them off for the time being hoping for better times to come. Mines, match factories and other industrial concerns have been compelled to follow suit, it is reported by the authorities that during May 56 big establishments closed throw-work while many smaller concerns have added their troubles to the general confusion.

The Department of Commerce and Agriculture estimates that 162,000 workers have been discharged since January, and hopefully suggests that many of these may have found new jobs. The situation is aggravated, however, through the fact that Japan's industries are located in comparatively few centers, and as a consequence the evils are concerning about 50,000 workers out of trated where they occur and cause very considerable hardship.

## TO OPEN AT WALNUT RIDGE

Harvest Time Meeting Will be Held by Winona Lake Evangelist

A series of evangelistic services will be started Sunday at the Walnut Ridge Friend's church, near Carthage, and will be the annual Harvest Time meeting, that has long been celebrated at his church. Evangelist Frank Long of Winona Lake will be the principal minister in charge and will be assisted by William Kinsey of Richmond, who is a singing evangelist of distinction. The services will be conducted for ten days or two week, and services will be held nightly in the church, beginning with the regular meeting on Sunday night.

## DEMAND IRISH TRUCE.

London, July 14—A resolution demanding an immediate truce between the warring factions in Ireland and withdrawal of the British army, was adopted at a special meeting of the Trade Union, representing thousands of British workers, at Central Hall, Westminster.

## RUSHVILLE FARMERS TO MEET

The regular monthly meeting of the Rushville Township Farmers' association will be held tonight in the assembly room of the court house. Nothing of much importance is expected to come before the meeting, but a large attendance is expected to be present.

## In Your Routine Banking—

### NOTICE TO NON-RESIDENTS

*The State of Indiana, Rush County.*  
In the Rush Circuit Court,  
May Term, 1920.

Jasper D. Case vs. Paul Randall et al.

Now comes the plaintiff by Gary & Bohannon, his attorneys, and files his complaint herein, complaint to quiet title, together with an affidavit that the defendants, Paul Randall, unknown heirs, devisees and legatees of Paul Randall, deceased, Elizabeth Randall, unknown heirs, devisees and legatees of Elizabeth Randall, deceased, Ira Perkins, unknown heirs, devisees and legatees of Ira Perkins, deceased, Charlotte Perkins, unknown heirs, devisees and legatees of Charlotte Perkins, deceased, Conrad S. Perkins, unknown heirs, devisees and legatees of Conrad S. Perkins, deceased, Lucy B. Perkins, unknown heirs, devisees and legatees of Lucy B. Perkins, deceased, Rachel Ann Randall, unknown heirs, devisees and legatees of Rachel Ann Randall, deceased, Roswell Randall, unknown heirs, devisees and legatees of Roswell Randall, deceased, Cornelia Randall, unknown heirs, devisees and legatees of Cornelia Randall, deceased, Mary E. Randall, unknown heirs, devisees and legatees of Mary E. Randall, deceased, James Randall, unknown heirs, devisees and legatees of James Randall, deceased, Dorothy Ann Randall, unknown heirs, devisees and legatees of Dorothy Ann Randall, deceased, Marcus Collins, unknown heirs, devisees and legatees of Marcus Collins, deceased, Henry Nicholas, unknown heirs, devisees and legatees of Henry Nicholas, deceased, Anthony Nicholas, unknown heirs, devisees and legatees of Anthony Nicholas, deceased, are unknown.

Notice is therefore hereby given said defendants, that unless they be and appear on the first day of the next term of the Rush Circuit court, to be holden on the first Monday in September, A. D. 1920, at the court house in Rushville, in said county and state, and answer or demur to said complaint, the same will be heard and determined in their absence.

In witness whereof I hereunto set my hand and affix the seal of said court, at Rushville, this 23d day of June, A. D. 1920.

**LOREN MARTIN, Clerk.**  
June 23-30-July 7-14

### NOTICE OF FINAL SETTLEMENT OF ESTATE.

Notice is hereby given to the creditors, heirs and legatees of William S. Miller, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 6th day of September, 1920, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

Witness, the Clerk of said Court this 23d day of June, 1920.

## Homer Havens & Son

## THE NEW OVERLAND

On Triplex Springs nimbly glided over the nation's roughest roads has written a wonderful story of Stamina. The story began with the unprecedented pre-production test covering 250,000 miles of the wild country of the great Southwest. In its first eight months of service among 75,000 owners climax upon climax has been piled up in records of extraordinary performance.

The remarkable performance of the Overland is due largely to its jar-absorbing Triplex Springs, which prevent the usual pounding of rough roads from causing discomfort to passengers. They also reduce the stress and strain on motor and chassis, preserving the car for longer wear and reducing upkeep. The chassis itself of finest alloy steel adds to the stamina of the car as a whole.

The success of the Overland Triplex Springs has changed the attitude of thousands toward the light type of motor car. You cannot truly appreciate the comfort, economy and stamina of the new Overland until you have actually ridden in this car.

## COAL PRIORITY BILL IS PASSED

House Suspends Rules, Approving Measure to Give State Institutions Shipments Preference

### APPROPRIATION BILL IS UP

Action Postponed to Give Members Opportunity to Study It—New Tax Bills Introduced

(By United Press.)

Indianapolis, Ind., July 14—Passing up consideration of the institutional appropriation bill until it can be printed and distributed to the members, the house of representatives of the special legislative session today suspended the rules and took action on the Swain bill providing for constitutional priority on coal shipments to state institutions.

The appropriation bill was to have been a special order of business for today but Speaker Eschbach did not want the house to act without thoroughly going over it.

There was nothing of importance before the senate and after 10 a. m. the session this morning adjourned for committee work until three o'clock this afternoon.

Senator English introduced a bill providing for a refund of excess amounts paid by Indiana taxpayers due to the horizontal increases on property valuations ordered by the state tax board.

The bill was a duplicate of the one introduced in the house yesterday.

The coal priority bill passed 78 to 15 after a brief heated argument in which Representative O'Neil of Terre Haute objected to the measure on behalf of the coal miners. O'Neil declared that the miners would hold the sack if the bill was passed. He asserted the measure was unfair to the coal miners inasmuch as it gave much of the work to miners for contracts to furnish coal for the state.

Following the committee's report, the house suspended the rules and passed the permanent registration bill unanimously. The rule was suspended by motion of Representative Southard, its author.

Thirty-three bills of minor importance were introduced in the house at the morning session. One of them was presented by Representative Rowbottom and was a duplicate of the measure introduced in the senate by Hogston yesterday afternoon which abolished the public service commission and recreated the railroad commission.

Rowbottom yesterday introduced a bill abolishing the public service commission without making provision for a machine to carry on its work.

The bill appropriating money for the state institutions was to be taken up by the house as a committee of the whole when it reassembled for the afternoon session at three o'clock.

## GERMAN OCCUPATION APPEARS INEVITABLE

Allied Military Leaders Called to Spa When Huns Refuse to Meet Coal Demands

### FRENCH MAY BE ORDERED IN

(By United Press.)

Spa, Belgium, July 14.—With the summoning of Marshal Poeh and Field Marshal Sir Henry Wilson, allied occupation of German territory and other measures to enforce the Versailles treaty seemed inevitable today.

Germany's flat refusal to meet the allied demands for two million tons of coal monthly resulted in the suspension of the convention and the calling of allied military leaders.

Plans have been completed for action against Germany. Unless some solution of the situation is reached today the French army on the Rhine will be ordered to proceed into Germany.

## DAMAGE DONE

Winds Blows Down Trees and Corn and Flattens Wheat Shocks

No reports were received today of any serious damage being done by the severe wind and electrical storm which visited Rush county yesterday evening and was particularly severe in the northern part of the county. Many beautiful shade trees in Rushville were blown down and also in the northern part of the county, large numbers of trees were laid low. Wheat shocks were flattened and telephone poles twisted over. The corn was blown over in some places, but farmers believed today that it would straighten up. A heavy rain accompanied the storm.

## TWO BOYS PUT IN JAIL ON VAGRANCY CHARGE

James Teeters And Virgil Land Fined \$10 and Costs Few Hours After They Finished Work

### MAYOR WOULDN'T BE LENIENT

Three young men, James Teeters, Virgil Land and William Hendricks were placed in jail late yesterday afternoon, the first two being charged with vagrancy and the last for shooting a gun within the city limits. Teeters and Land were each fined ten dollars and costs, and Hendricks was to be given a hearing some time today.

The two charged with vagrancy were said to be employed up until yesterday at noon, Land stating that he had assisted in unloading a car load of coal in the morning, and Teeters was employed in a local factory, but the officers and mayor decided that they were loafers and sentenced them to jail to live on the county for twenty days. Land handled 40 tons of coal in a day and a half and took a half day off, expecting to return to work this morning.

This morning, Roy Waggoner, manager of the Park Furniture factory, offered to give all three boys employment if the mayor would be lenient and allow their freedom, but this he refused to do. Another local man made the same offer, which was also refused.

Uniform Rank, Knights of Pythias, Will Meet Tomorrow Night to Make Arrangements

### CLEVELAND WEEK OF JULY 26

The Uniform Rank, Knights of Pythias, will meet tomorrow night at the K. of P. building to make arrangements for the trip to Cleveland, Ohio, to attend the national encampment which will be held the week of July 26. Capt. George Coons has received word that negotiations have been completed for a rate of one and one-third for the round trip. A special train carrying the Indiana brigade will leave Indianapolis over the Big Four at 9 a. m. Sunday, July 25. Ample accommodations will be provided, including one section of a Pullman for each two Knights.

Many members of the Rushville company are planning to go and take their wives. Some are planning to motor to Cleveland. It is necessary to have certificates, which are not in the hands of Capt. Coons, in order to get the reduction in fare. Cleveland will be thrown open to the Knights and extensive arrangements have been made for entertainment, including side trips to Canada and Niagara Falls. The Indiana special will stop at Marion, O., for an hour on the way over so Knights may visit Senator Harding, republican candidate for president. The meeting tomorrow night will be followed by a lunch.

## OLD FAVORITES ARE RETURNING

Mabel Quam Stevens, Celebrated Woman Lecturer and Swiss Yodlers, to be at Chautauqua

### BOTH HERE TUESDAY, AUG. 10

Big Day's Program Will be Completed With Lecture by Dr. C. A. Tindle, Famous Preacher

Monday and Tuesday of the annual Rush county chautauqua, which will open at the city park Sunday, August 8, will offer especially attractive programs, with the Hadley concert company, which opens the assembly with two programs, giving two concerts the second day. Prof. George D. Wham, a county institute lecturer, will speak in the afternoon of that day.

On Tuesday the Swiss Yodlers, who need no introduction here, will appear on both the afternoon and evening programs and Dr. Charles A. Tindle, a negro preacher, will speak in the afternoon and Mabel Quam Stevens in the evening.

Mrs. Stevens is another who needs no introduction to a Rush county audience for she has lectured before at the chautauqua, and to say that she pleased the audience would be putting it very mildly.

In Mrs. Stevens, lecturer on Biblical themes, there is presented to Chautauqua patrons a woman who has been termed the greatest orator of her sex in America. "She is a woman of remarkable versatility and most persuasive eloquence," said Senator James E. Watson, after hearing her a number of times at Winona Lake, during the Chautauqua season of 1918. "She has a most intimate knowledge of the Bible and her exposition of Scriptural texts is always interesting." Mrs. Stevens is so forceful in her speaking, so convincing in her arguments and so humble and sympathetic in her manner that all her audiences have been charmed," said the Elgin (Nebr.) Review, in reporting a series of meetings that she conducted. These are but typical comments out of many. Wherever she has appeared she has won the hearts of all her hearers.

Mrs. Stevens fills a real need. There has been a big demand for a lecturer who can dramatize the time-old truths of Scripture and give them a modern application—who can tell "the old, old story" with ever new effectiveness. Such a lecturer is Mrs. Stevens.

The greatest negro preacher in the world, and one of the really great preachers of any race in America, Dr. Charles A. Tindle, pastor of East Calvary church of Philadelphia, is scheduled to speak at Chautauqua. This distinguished negro preacher has challenged the attention of America by the masterful manner in which he has handled the influx of some 40,000 negroes into Philadelphia, and the thoroughness of his preparation to make them thoroughly American, by the old fashioned process of encouragement, clean living, religion, faith and the opportunity of earning an honest dollar and possessing it undisturbed after it is earned.

### ASSEMBLY WELL ATTENDED

Carthage Chautauqua Opens Tuesday and Closes Thursday

The Carthage chautauqua, which began yesterday under a tent in that town, is drawing big crowds, according to reports from there today. The chautauqua this year was reduced from a five day meeting to only three days, and will close on Thursday night. All of the programs are said to be unusually good and contain a variance of entertainment, including lectures, instrumental and vocal music and special entertaining features. Coming as it did, in the midst of the harvest season, it was expected that the attendance would be reduced, but so far all sessions have been well attended, and the tent has been filled at the night sessions.

## HEAVY RAINS TO DELAY THRESHING

Wheat Already Contained High Percent of Moisture and Needed Lots of Sunshine

### CORN PROSPECTS ARE GOOD

Indiana Crop Report Forecasts Big Decrease in Yields of Both Corn and Wheat

The heavy rains throughout the county last night will delay wheat threshing according to farmers today, and the high wind also blew down some of the corn, but this damage will not be great, it is believed.

The wheat was already wet and needed several days of sunshine before it was threshed, and the soaking rains last night will serve to postpone threshing even longer. The first wheat delivered to a Rushville elevator yesterday graded low because of the high percent of moisture, and farmers were advised then by elevator men not to thresh too soon if they wanted to get the best possible grade on their wheat.

Although the corn crop in Indiana is estimated to be six million bushels short of last year, even though the acreage is only one percent less, according to the state official crop report issued today, Rush county farmers have high hopes of at least an average corn yield this year, in spite of the fact that the crop got a very late start, due to the delay in planting on account of the bad weather.

The Indiana crop report says the estimated wheat crop for this year is more than twenty-five million bushels less than last year and rye shows a falling off of 262,000 bushels. Oats show an increase of 1,612,000 bushels. The report follows in part:

In some counties the corn acreage has been considerably increased especially in the northern part of the State, where many wheat fields were abandoned late in May. Some of the southern counties, however, show quite a large decrease; this is due principally to floods and rains during May and June. The total for the State amounts to 4,702,000 acres and is 1 percent less than last year.

The condition for the State is 84 percent of normal and indicates a production of 169,836,000 bushels compared with 175,750,000 bushels harvested last year. There is a good stand of thrifty plants and the color is good with practically all fields free of weeds. With continued favorable weather conditions the crop should show quite an improvement by August 1. In a few counties hail and insects have damaged the crop and diseases were reported in a few localities.

Winter wheat condition is not as good as last month by 1 point, being 60 percent of normal and indicating a total production of 20,664,000 bushels, compared with 23,792,000 bushels harvested last year. In the north part of the State the crop is practically a failure in some localities due principally to the ravages of the Hessian fly, although considerable of it was killed by sleet storms in the early spring. Practically all the diseases and insects known to damage the wheat crop have been at work this year.

Last year's wheat stub on farms amounts to 1,840,000 bushels. Rye shows an increase of 2 points in condition over last month, being 87 percent of normal. A total production of 5,058,000 bushels is indicated from these figures and compares with 5,320,000 bushels harvested last year.

The condition of oats declined 2 points during the month and now stands at 82 percent of normal, on which a total production of 61,897,000 bushels is indicated. Last year there was harvested 60,235,000 bushels in the State. As yet there has been no heat damage and practically all fields are headed out, but generally on very short straw. The early sown oats are generally much better than the late sown and with continued favorable weather a larger crop than is indicated at this time should be harvested.

## GLASS LODGES IN BAD EYE

Although Injured, Frank Hobart Escapes Losing Sight Entirely

Frank Hobart, a young man employed at the Charles E. Francis company factory, suffered a severe injury to his left eye yesterday when an electric light globe exploded in his face as he was turning it off, but fortunately it was the eye, the sight of which he had already lost in which the glass lodged.

He was taken to Dr. E. I. Woodson's office where he was given relief and the small particles of glass were removed from his eye. It was regarded as very fortunate that no glass got in the eye in which the sight is not destroyed. The injury caused him much pain and this morning he was reported to be improving.

## THREE BUSINESS ROOMS ARE SOLD

Mr. and Mrs. George Wingerter Buy Building East of Old Windsor Hotel of Ray Keyes

### MOORMAN GARAGE IS SOLD

Several pieces of property have been sold here, including three business properties which have just changed hands.

Mr. and Mrs. George Wingerter this morning bought the two business rooms located just east of the Windsor hotel building in West Second street, from Ray Keyes of Boswell, Ind., formerly of this city. Mr. Keyes was agent here for the Ford automobiles, and recently sold the hotel building which he used as a garage, and in selling the two business rooms, closed his interests in this city. Mr. and Mrs. Wingerter renewed the leases to the present occupants in the business rooms, and will continue to rent them.

The two rooms are occupied by the Schlosser Brothers Creamery Co., and Alva Osborn, tailor.

Ora Montgomery of this city has purchased the garage owned by Bert Moorman in South Main street, and will take charge of the business; at once. Mr. Montgomery also has purchased the residential property of Howard Barrett, 420 North Morgan street, where he will move in a few weeks. The consideration of the residential property was said to be \$4,500.

## AWAIT ACTION OF STATE LEGISLATURE

Jackson Township Officials Not to Award School Contract Pending Action on Tax Increases

### THIS WILL AFFECT FINANCES

The contract for the construction of the new consolidated school building in Jackson township is being held up by the township trustees Alva Newhouse, and the advisory board, pending the action of the special session of the state legislature, which will make a definite decision in all probability about the horizontal increases, as imposed upon the taxpayers. If the horizontal increases are not legalized the township will be seriously handicapped by the lack of funds.

The bids were opened here Monday afternoon, at which time three bids were submitted for the general construction of the building, two for plumbing, heating and ventilating, and one for the electrical installation.

When the bids were opened it was found that the highest bid was for \$74,000 on construction and the lowest for \$54,000, or a difference in price of a little more than \$20,000. At first the delay in awarding the contract was thought to be due to the difference in prices submitted, but today it was learned that it was deemed best to await the meeting of the legislature to decide upon the horizontal increases.

## SPECIAL TAXES DUE THIS MONTH

Millions of Dollars Will be Collected by Government From Many Different Sources

### ARE DUE BEFORE JULY 31

Theaters, Museums, Circuses, Pawnbrokers, Tobacco, Riding Academies and Others Included

Millions of dollars will be added to the revenues of the government this month from special taxes due on or before July 31, 1920. The list includes the tax on brokers, pawnbrokers, museums, theaters and concert halls, circuses, bowling alleys, shooting galleries, riding academies, tobacco, buses, etc.

Forms for filing returns are available at offices of collectors of internal revenue and branch offices. Heavy penalties ranging from a fine not to exceed \$1,000 for failure, and not to exceed \$10,000 or one year's imprisonment, or both for willful refusal to make return and pay the tax on time are prescribed by the current revenue act.

Returns of the capital stock tax also must be filed on or before July 31.

To facilitate prompt collection and as an aid to the taxpayer as well as the government, the Bureau has suggested that filing of the return be accompanied by payment of the amount of tax due. This method is appealing to corporations, as it lessens liability to penalty.

The capital stock tax applies to every corporation carrying on or doing business in the United States. The tax on domestic corporations is \$1 for each \$1,000 of so much of the fair average value of its capital stock for the preceding year ended June 30, as is in excess of \$5,000. Foreign corporations are required to pay a tax of \$1 for each \$1,000 of the average amount of its capital employed in the transaction of its business in the United States during the preceding year ended June 30, without the benefit of the \$5,000 deduction.

The tax on brokers whose business it is to negotiate purchases or sales of stock, bonds, exchanges, bullion, coined money, promissory

## DELEGATIONS VISIT CINCINNATI TODAY

Rushville and Connersville Men Plead For Change in Mail Service on C. I. & W.

### 57 FIRMS SIGN PETITION HERE

Delegations from Rushville and Connersville motored to Cincinnati today to attempt to have the mail service on the C. I. & W. railroad changed so that the two new through mail trains added last Sunday will carry mail for these two cities.

The Rushville party was composed of Earl H. Payne, president of the Rotary club, and R. L. Tompkins, chairman of the public questions committee of the club, and they carried with them a petition signed by fifty-seven Rushville retail business men and manufacturers, urging that the 5:35 a. m. east-bound passenger and the 1:18 west-bound passenger carry mail for Rushville. The change in the morning mail from the west would enable business men to get their mail by seven o'clock, whereas the mail from the west does not reach Rushville until 7:05 o'clock and is not all distributed before eight o'clock. The rural mail carriers are not able to leave the postoffice before 8:30 a. m.

The Connersville delegation included Emory Huston, vice-president of the Lexington Motor company; H. A. Wainwright, vice president of the Wainwright corporation; Postmaster Dinges and W. C. Suter, secretary of the Chamber of Commerce. They expected to make their complaint to John Clark, superintendent of mails.

**WOMAN DIES**  
 Mrs. George Easty, 70 years old, died at her home, 1117 S. 1st St., Sunday morning. She had been ill for some time. Burial will be in the cemetery at 10 a. m. Monday.

**Scientists Free Castor Oil From Nauseating Taste**  
 Scientists have developed a process by which all nauseating taste is removed. Nothing is lost in the process. Strength and purity remain. The taste is the same as the old-fashioned castor oil that your doctor always prescribed. With the disagreeable taste removed, children take Kellogg's Tasteless Castor Oil without knowing it is castor oil. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c and 65c. (Adv)

**Wholesale Prices Improve Fall**  
 as bit funny  
 Monday

Nobody ever dreamed that castor oil could be made tasteless. But the chemists of Spencer Kellogg & Co., Inc., one of the largest manufacturers of castor oil, tackled the problem, and succeeded in perfecting a process by which all nauseating taste is removed. Nothing is lost in the process. Strength and purity remain. The taste is the same as the old-fashioned castor oil that your doctor always prescribed. With the disagreeable taste removed, children take Kellogg's Tasteless Castor Oil without knowing it is castor oil. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c and 65c. (Adv)

**REDDICK ROAD ABOUT DONE HOG PRICE STEADY**  
 Three mile stretch near Carthage built since April 1  
 The North Reddick highway in Ripley township is now nearing completion. It will be completed some time this week, as the board of reviewers will begin their inspection of the road tomorrow. The road is located just east of Carthage and goes east for three miles from the end of the cement pavement south of Carthage to the Davenport farm. Construction was begun on this road on April first, and is a gravel highway. The contract was awarded to Charles Reddick of Greensburg.

**PLAN TO GO TO MARION, IN**  
 Few Local Republicans to Attend  
 Notification Ceremonies  
 A few republicans from this county are planning to go to Marion, Ohio, July 22 when Senator Warren G. Harding will be notified formally of his nomination for president. They will go with the Indianapolis delegation which has chartered two special cars for the trip.

Two chair cars will be attached to the regular Big Four train leaving Indianapolis at 7 a. m. and the connections are such that the delegation can return to Indianapolis the same day. Fred Shortemeier, secretary of the state republican committee, has made all the arrangements for the visit to Marion and is trying republicans to go.

**WITH JUDO RECEIPTS**  
 CATTLE MARKET IS STEADY  
 The general tone of the Indianapolis hog market was steady today with 4,000 less receipts, although the top prices were twenty cents under yesterday's top. Cattle and sheep held steady and grain prices were unchanged.

**WYNNVILLE MAN TO SPEAK**  
 In spite of the rain and storm of last evening, quite a number of people attended the revival meeting being held in the coliseum in the city park. Evangelist Towns gave a very interesting message from the Fifth Chapter of Matthew, which was greatly appreciated by the congregation. The Rev. Luther Addington of Wynneville will be present this evening and deliver the sermon. The public is cordially invited to hear this message.

Sometimes Good in Failure.  
 Failure after long perseverance is much grander than never to have a striving good enough to be called a failure. George Eliot.

Scientists say that an ordinary whale lives to the age of 500 years, while some whales have been caught whose appearance denotes them to have lived as many as 1,000 years.

**TRAVEL ON LAKES BREAKS RECORDS**

Dozens of Steamers Jammed to the Gunwales With Tourists Ply Way up And Down Lakes

**PEOPLE SWARM TO RESORTS.**

Present Great Popularity of Lakes is Attributed to The Increased Earnings of Average Person

Cleveland, Ohio., July 14—Travel on the great lakes this summer is surpassing all previous records. Dozens of steamers, jammed to the gunwales with tourists, ply their way up and down and across the lakes to scores of islands, beaches and summer resorts, most of them already a swarm with cottagers and those on vacation bent.

By the end of the rather brief lake travel season, close to 500,000 persons will have answered to the lure of the lake, according to H. A. Semler, manager of the Akers, Folkmann, Lawrence company, water travel agents here. His figures are based on the number of lake steamers available, their capacity and the reservations made.

Semler reported a ceaseless stream of men, women and children flowing in on the offices of all lake navigation companies. They come from all parts of the country and from many parts of the world. The confirmed globe-trotter, he reports, has turned from European travel to exploring the many summer resorts dotting and bordering the lakes. Persons who heretofore spent their moments of leisure and recreation in the mountains or at the seashore, are clamoring at the various lake ports for steamer accommodations.

Special lake trips are widely popular. Trips of from one to two weeks in length are attracting the greatest number. The cost of travel has gone up about 25 percent over last year. A week's trip can be made at a trifle over an average of \$10 per day per person.

Several companies offer a week's tour of the lakes for \$72.50 per person. Their boats touch a dozen ports, with brief stopovers at points notable for their historical or recreational attractions. One Canadian line offers a trip 1,000 miles in length with stops at the principal Canadian cities on the lakes. Another specializes in trips of 1,600 miles.

Semler attributes the present great popularity of the lakes to the increased earnings of the average person, the overcrowding of ocean liners, deferred vacations, a natural swing from land to lake resorts and the attractiveness, comforts and reasonable cost of lake tours.

**HEAVY RAINS TO DELAY THRESHING**

Continued from Page One

The barley condition declined 1 point during the month and is now 82 percent of normal. A total production of 1,504,000 bushels is indicated, compared with 1,430,000 is indicated, compared with 1,430,000 bushels harvested last year.

The acreage of white potatoes is 10 percent less than last year and the condition is 86 percent of normal. On these figures a total production of 7,353,000 bushels is indicated and compares with 4,400,000 bushels harvested last year.

The condition of all hay crops shows a decline of 4 points during the month and now stands at 82 percent of normal. On these figures a total production of 2,832,000 tons is indicated, compared with 3,080,000 tons harvested last year. The condition figures on the various kinds of hay are: clover, 80 percent; timothy, 82 percent; alfalfa, 69 percent; millet, 81 percent; cowpeas, 87 percent and soy beans, 87 percent.

Apples show a decline of 12 points over the June report; peaches increased 1 point and pears remain the same. On these figures there is indicated a total production of 5,532,000 bushels of apples, 902,000 bushels of peaches and 607,000 bushels of pears. Grapes show a condition of 89 percent of normal, which is considerably above the average, and blackberries and raspberries show a condition of 91 percent of normal, also somewhat above the average.

**ANNUAL M. E. MEETING**

Indianapolis, Ind., July 14—Methodist Episcopal churches of Indiana held their annual meeting here today. District superintendents, two representative pastors and laymen from nearly every district in the state attended.

**Goodyear Skill—as Represented in Tires for Small Cars**

The high relative value built into Goodyear Tires, of the 30 x 3, 30 x 3½ and 31 x 4-inch sizes, results directly from the extraordinary skill and care applied to their manufacture.

To make their quality available widely, Goodyear operates the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at our nearest Service Station.

Go there for the exceptional value in these tires, made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

—**"Let's be Fashionable"**—Princess

Douglas MacLean and Doris May will be the attraction at the Princess Theatre today in their latest screen comedy, "Let's Be Fashionable". This picture is declared to be fully as hilarious as the three previous releases of these youthful co-stars, who have proven extremely popular everywhere.

"Let's Be Fashionable", is the story of a young married pair with limited means and their efforts to keep up with the social swim at a swell summer resort. To be in style both secure themselves "affinities" and get into all sorts of humorous complications. When they have at last extricated themselves from the mess, they decide that it is better to be happy than to be fashionable.

Wade Boteler, Norris Johnson, and George Webb are included in the supporting cast. The story is the work of Mildred Considine and was adapted for the screen by Luther Reed. Lloyd Ingraham directed the picture for Thomas H. Ince. It is a Paramount Artercraft release.

### Foch Day

Tomorrow will be the second anniversary of that great offensive which injected American spirit and initiative into the world war and was the dominant factor in the defeat of the Huns. It was in May, just two months before the historic drive to save the world from German domination, that Foch took command of the allied troops. Those in Europe who were familiar with the situation knew that he was quietly making his plans.

Some of us were impatient for results, but the greatest war strategist the world has ever produced knew what he was about. Germany, like a great snake, was coiling itself around Europe, and many felt that when she again started towards Paris she would be prepared for any emergency. The preparation of forty years was to count for nothing in four months and why? Not because the allies were heaping victory on victory—not because the outlook was dark for Germany—but because Foch was in supreme command.

To the people of the world those days in early July looked black and threatening. Yet Foch, when asked what he thought of the situation said: "I like my part. Better, and may America always play the role which she can serenely say is the better part."

The 15th of July was a glorious and solemn day for civilization; solemn because it was to bring us to forests other than our own; impose obligations upon us which we had never before known. They had borne the brunt of the fighting, and we were to reap more than our share of peace and prosperity. We were to have more of our sons returned to us because France and England had protected the United States. Let us never forget that. We have not paid our debt to France, and as each succeeding 15th day of July comes around let us with one accord remember Foch, the greatest of generals, who preserved humanity to each of us.

### Womanly Charms

Think a little and you will call to mind some young lady whose sweetness is a marvel to her friends.

Part of that disposition is hereditary, but much of it is the result of environment and early training.

Some mothers have a rare talent in the training of children. They do not rule by threats and spanks, but from early childhood the pride of the little one is brought to the fore.

As early as it can understand, it is taught to be gentle and sweet and to take pride in excelling in those womanly qualities which appeal so strongly to the human race.

As a child is taught in its infancy, so will it invariably be in maturity.

If all mothers would bear this fact constantly in mind, there would be more of that innate sweetness which is so charming in the female sex, and which appeals so strongly to manhood in all stations of life.

Life holds a barrel of joy for you if you want it. But it expects you to pull the plug out of the bung hole.

The young man with a multitude has become nothing but a jumble.

## STOP ITCHING SKIN

Use the Clean, Antiseptic, Lysol, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and soothes the skin.

At any drug store for 25c or \$1 bottle of Lysol and apply it as directed. Lysol will kill that irritating cause of itching—eczema, blotches, ringworm and similar skin troubles will disappear.

Vermeil's penetrating, satisfying Lysol is all that is needed for 25c. Lysol kills skin eruptions, makes the skin soft, smooth and healthy.  
 Geo. E. W. Ross Co., Cleveland, O.

## Sap and Salt

By BEET MOSES.

An empty stomach gets little nourishment out of hope.

A soft drink, unlike a soft answer, creates wrath instead of turning it away.

The talk you hear about things is usually bigger than the things themselves.

Day dreams sometimes come true, but any kind of dream is a poor thing to bet on.

The reason one man goes ahead of others is because he does things better than they do.

Hex Heck says: "The supply of appendices having run short, the surgeons are turning more and more to transplanting goat glands."

## United States Tires

**REMEMBER** the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

## WILL TO ESTABLISH A WRIGHT MEMORIAL

Representative Symons of Henry County introduces measure in the legislature

### WAS BORN NEAR COUNTY LINE

Luther F. Symons of Louisville, Henry county representative in the legislature, has introduced a bill in the special session of the legislature, providing for a memorial for Wilbur Wright, who was born in Liberty township, Henry county, just north of the Rush-Henry county line.

The bill is similar to that passed by both houses at the last regular session of the legislature, but did not receive the governor's signature.

The bill would appropriate the sum of \$2,000 towards the purchase of a small tract of ground at the birth place of Wilbur Wright, co-inventor of the airplane, in Liberty township, Henry county. Under the provisions of the bill a similar sum would be raised by the Henry County Historical society and a commission of three is provided to arrange for the purchase. Two of the three members would be named from a list submitted by the Historical society.

The Historical society has long demanded that fitting recognition be accorded Wilbur Wright, either by the state or county, and Representative Symons worked hard for the success of the bill at the regular session. If passed both the house and senate with only dissenting vote. Mr Symons believes it will pass this time, unless the press of other important legislation smother the bill in committee.

JOHN H. PACKER, well known electrical engineer, of Liberty, Mo., who says that to look at him today no one would ever take him to be the same man he was before Tanlac restored his health. Has gained forty-four pounds.

"For two years previous to the time I began taking Tanlac, I lived principally on a raw-egg diet. During this time I was laid up in the hospital for five months and practically no hope was held out for my recovery. I don't suppose any man had a worse case of stomach trouble than I did, in fact they said I could not live."

"Tanlac did not seem to help me much at first, and I had almost made up my mind to give it up, but if I had given it up it would have been the mistake of my life. I stuck to it for a fair test and am thankful that I did, for after finishing my fourth bottle my appetite was better and I noticed myself improving."

"This encouraged me to keep on taking it and in two months I was able to eat a good square meal and digest it as good as anybody. Then it wasn't long until I got so I could go back to my work and at the time I had finished my last bottle, I found I had actually gained forty-four pounds in weight."

"To look at me today no one would ever take me to be the same man I was when I began taking Tanlac."

The above remarkable statement was made recently by John H. Packer, well known electrical engineer of Liberty, Missouri.

Tanlac is sold in Bushville by E. E. Johnson Co., in Macon by D. Lee Copper, in Memphis by Geo. J. Law, in Arkansas by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty. (Advt.)

## TO WIN SILVER CUP

Shamrock IV, 1914, the challenger, won the America's Cup in 1914. She was started in 1914.

### U.S. HAD IT FOR 69 YEARS

Tarnished With Age, Silver Cup Worth \$500,000, Was Won by the New York Yacht Club

(By Outfit Press)

New York, July 14.—Tarnished with age, dust-filled from disuse, a silver cup worth \$500,000 when it was first won in 1851 will be the result of the New York Yacht Club. Tomorrow the fourteenth race for the title will be started, weather permitting.

For the possession of that cup, hardly worth twice its original cost, close to six million dollars has been spent and for it the best skill and science of the marine building world have been expended for 69 years.

"America's cup", emblematic of the supremacy of the seas, has been the coveted trophy of yachtsmen since before the Civil War, when the days when pack trails provided the only avenues into the great West and since the days before the transatlantic cables connected the two worlds.

In all that time, against the challenges of the world, the cup has remained in America. In a pawnshop the cup wouldn't draw enough to pay one crew in a trial race but the ideals which it represents, the traditions of the sea, gives it a sentimental value and a place in national affection that makes it worth the fortune spent on it and will justify the outlay of millions in the future for its defence.

After the cup was won in 1851 by the historic America it remained out of competition for 15 years when the New York Yacht Club set it up before the world as a challenge trophy.

In the fall of 1866, James Asbury, a wealthy Britisher who owned the Cambria, challenged the cup holders for a race. Correspondence was carried on for two years but it had no results since Asbury had no club affiliations and the cup holders were not forced to defend against private challenges.

However, in July, 1870, Asbury sailed the Cambria over and a race was arranged with 73 American Yachts against her. The course was off Staten Island in the upper bay, through the Narrows, down the bay to Sandy Hook lightship and return, a distance of 38 nautical miles.

The race was won by the Magic with Idler second, Desantless third, Asperus fourth, and Cambria the challenger eighth.

Asbury protested the race on numerous grounds but they were all overruled.

Asbury then gave up his quest for the cup and the Royal Canadian Yacht Club schooner, the Cornubia, of Dufferin. The defender, the Madeleine, defeated the challenger.

Canada tried again in 1881 when the Bay of Quinta Club of Ontario set down the sloop Atlanta and she was in turn beaten by the Mischief. Four years elapsed and the matches were resumed with a series of annual races starting in 1885.

The defender Puritan defeated the Genesta in 1885 and the challenger Galatea was beaten by the defender Mayflower in 1886. The following year the defender Volunteer again won against the Thistle.

In 1893 Lord Dunraven set out to bring the cup back to England. He sent over the Valkyrie II. The cup was defended successfully by Vigilant, the first of the line of Herreshoff sloops which are represented again this year by Resolute, the defender.

Dunraven tried his luck again in 1896 with Valkyrie III. The first race of the series was won by the Defender in a light wind. In the second race, Defender was fouled by the Challenger and lost the race with a broken wing.

The first of his family of Shamrocks appeared in 1899 but she was defeated by Columbia in three straight races.

Shamrock II came back in 1901 to meet a sloop built and designed by Herreshoff, the Constitution. But she failed to make good in the trials and Columbia was sent out again to meet the challenger. She defended the cup successfully, winning by a margin of one victory when by the time handicaps which the British yacht was forced to concede.

In 1903, Shamrock III was brought over by Lord. The Constitution was chosen as the defender and she demonstrated her superiority over the challenger in a decisive manner.

priority over the challenger in a decisive manner.

In 1914, Shamrock IV, this year's challenger, was the challenger. She was on the water when war was declared and had to travel 1,000 miles out of her course to dodge submarines. Upon her arrival here she was hauled out and placed in a hermetically sealed enclosure where she remained for five years, narrowly missing destruction by a fire at the Jacobs shipyard early this spring.

The Resolute, a Herreshoff boat, Vanitie, designed by William Gardner and Defiance, designed by Geo. Owen, met in a series of trial races which determined the fairness of Defiance and left the committee in doubt as to Resolute and Vanitie.

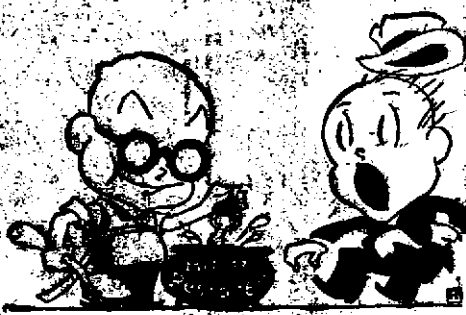

In the trial races this summer, Resolute again defeated Vanitie in the trials and she was finally named as the defender.

This brings the history of the races up to the present time and makes the way clear for the next chapter, the races off Sandy Hook starting tomorrow between Shamrock IV and Resolute, the fourteenth time the America's Cup has been fought for.

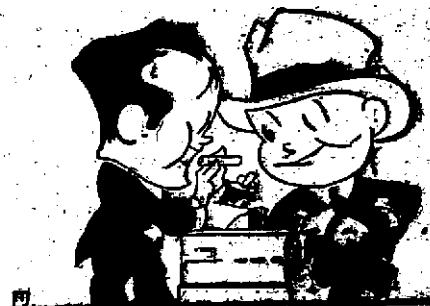

### DISTRIBUTE BASS AND PERCH.

Indianapolis, Ind., July 14.—Forty-one thousand large-mouth No. 1 bass fingerlings and 3,500 No. 1 yellow perch fingerlings were distributed during June from the Wawasee and the taken hatcheries operated by the department of conservation, a report of George N. Mannfeld, superintendent of hatcheries and game, shows. The fingerlings were planted in waters in eight Indiana counties and in each case a skilled fish culturist supervised the work. The Riverside hatchery so far this season has planted 269,000 advanced bass fry in Indiana.

"and he gave it dead away"

IT'S REALLY surprising  
THE MONEY you save  
BY ASKING questions.  
I FOUND that the maker  
OF A last resort  
WAS BOLD IN A CUP.  
SO I passed that up.  
AND A bird who came  
TO SELL all week  
HAD HIS own cash.  
HE LIBERTY Bends.  
SO I checked again.  
AND I asked a clerk.  
FOR THE best cigarettes  
AND HE reached around  
FOR A baby box.  
AND I knew I was in  
FOR THE same old has.  
SO I asked him this.  
"WOULD YOU smoke one of 'em."  
IF I bought a box?"  
AND THEN he smiled.  
LIKE A regular guy.  
AND SAID "No thanks.  
I'LL SMOKE MY OWN."  
AND I got wise.  
AND ASKED him then.  
WHAT BRAND he smoked.  
AND HE showed me  
AND THEN he said.  
"THEY SATISFY."  
AND EGOSH, he's right.

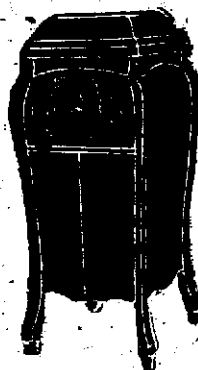

SURE they satisfy. Chesterfields  
I have "body"—that's the reason.  
Body enough to satisfy a cigar smoker.  
And yet Chesterfields are mild. Impossible.  
That's it exactly—Chesterfields  
have accomplished the impossible. They  
satisfy and yet they're mild.

# Chesterfield

# SOCIETY

Mrs. Wayne Werking and Mrs. Carl Gings and family of Raleigh were the dinner guests of Mrs. Irvin Walker of Gings today.

Mrs. J. M. Amos will entertain the members of the Happy-Go-Lucky club tomorrow afternoon at her home south of the city.

Mrs. Malinda Young will be hostess for the members of the Industrial club Thursday afternoon at her home in West Seventh street. A large attendance is urged at this meeting.

The Marian Social Circle of the St. Mary's Catholic church will be entertained tomorrow afternoon at the home of Mrs. Anthony Schrieble in West First street. The assisting hostess will be Mrs. Wade Sherman.

Mrs. Will Prazee entertained the members of the Tuesday Afternoon Bridge club yesterday afternoon at her home in West Third street. After an afternoon of cards, the guests enjoyed delicious refreshments.

Friends of Mrs. Charles Hinkle delightfully surprised her last evening at her home in West Fifth street, honoring her birthday anniversary. After the delicious pitch-in dinner which was served the guests spent the remainder of the evening socially.

Mr. and Mrs. A. T. Mahin and daughter, Miss Margaret, Henry McGuire of this city and Mr. and Mrs. William McGuire of Indianapolis, were delightfully entertained Sunday at the home of Mr. and Mrs. Max Mahin, southeast of Connersville.

The Invitational dance given last evening in the Modern Woodman hall was enjoyed by about thirty couples. The out-of-town guests were from Cambridge, Raleigh, Fairmouth, Mays, Knightstown and Chicago. The splendid dance music was furnished by Mrs. Francis Knecht and Fred McGinnis of this city.

Mrs. Cornelia Lyons of this city and Mrs. Phoebe Phillips of Arlington were among the guests who attended the reception given for the department president of the W. R. C. and the commander of the G. A. R., which was held in the state house in Indianapolis this afternoon.

Mrs. Earl Harton and Mrs. Harry McManus entertained yesterday afternoon at the home of Mrs. McManus in North Main street with a miscellaneous shower in honor of Miss Ruth Spivey, whose marriage to Walter Thomas Ray of Connersville will take place the later part of this month.

Mrs. George Helm entertained with a prettily appointed six o'clock dinner party last evening at her home in West Third street. The table was adorned with bouquets of summer flowers and covers were laid for eighteen guests. Mrs. Helm will be hostess again this evening for a six o'clock dinner party when she will entertain eighteen more ladies.

Mr. and Mrs. Dora Hillgoss living southwest of Rushville, entertained Senator Colburn of Louisville, Ky., and Mr. and Mrs. Charles Brown of Charleston, West Virginia, at their home Sunday. Mr. and Mrs. Hillgoss entertained at dinner Sunday evening, Mr. and Mrs. O. P. Wamsley and daughter Katherine.

and Mr. and Mrs. Esie Hillgoss, in addition to the honored guests from a distance.

Mr. and Mrs. George Erhart and family had as their dinner guests Sunday Mr. and Mrs. Harry Wright of Connersville and Mr. and Mrs. William Kiser of Sexton.

Mr. and Mrs. Jake Clifton entertained with a prettily appointed dinner party at their home in Gings Tuesday evening. Covers were laid for Mr. and Mrs. Kanerda Jones and daughters Maxine and Pauline, Mr. and Mrs. Carroll Clifton and daughter Emogene and Glennis Clifton. The remainder of the evening was enjoyed with music on the Edison.

Miss Gladys Wallace was hostess for the members of the Psi Iota Xi sorority yesterday afternoon at her home in North Perkins street. The party was in the form of a shower honoring Miss Jeanette Clark, who will be united in marriage to Floyd Kirklin of Muncie, Thursday. The thirty guests present enjoyed the afternoon playing Bridge. Among the guests were Mrs. Miller Hamilton of Washington, D. C., Mrs. Allen Messick of Marion, Ind., and Mrs. George DeHoff of Elwood. A dainty luncheon was served at the close of the card games. The assisting hostesses were the Misses Mary Jane Carr and Leah Flint.

## IS A MINATURE ART MODEL

### Recent Acquisition to State Museum Work of John Q. Adams

Indianapolis, Ind., July 14—A recent acquisition to the state museum maintained under the Department of Conservation, is a miniature art model executed in plaster, carved wood, paints and oil of the pioneer homestead of John McCormick, first white settler of Indianapolis.

The miniature is the work of John Q. Adams, a metal pattern maker, who studied 10 years under Rudolph Schwartz, sculptor, and executor of the groups on the Soldiers' and Sailors' Monument. It proved one of the fascinating features of the Indianapolis centennial in June and is expected to prove interesting to students throughout the state. It is a faithful reproduction of the log cabin which John McCormick established on the east bank of White river just north of what is now Washington street, and a true replica of the topography of Indiana in 1820 together with the state's frontier period.

## VISITS GLENWOOD TODAY

Capt. Trench Continues Canvass For Salvation Army

The motor truck gathering contributions for the Salvation Army sale next week in the interest of the Home Service campaign, will make trip to Carthage and vicinity tomorrow, Capt. Trench announced today. Substantial gifts of all sorts were received by Capt. Trench yesterday and he was hopeful of realizing well on the trip to Glenwood today.

If a room can be obtained, it will be opened Friday to receive contributions which have been promised from many parts of the county.

## TO ATTACK POLE ARMY

London, July 14—Lithuanian troops are reported mobilizing for an attack on the Poles, in accordance with an agreement signed by the Russian Soviet government, according to newspaper dispatches from Kovono. The Polish troops have retreated to a new line of defense, destroying communications in their retreat.

## BRITISHER EXECUTED

Washington July 14—John Freedman, a British suspect, was executed and several Americans escaped death at the hands of anarchists of the Russian Bolsheviks, known as "Red Black Guards", during a reign of terror at Nechovsk in Siberia, according to reports to the state department from the U. S. consul at Vladivostok.

## DOCTOR MOVES OFFICE

Dr. D. H. Dean has moved his offices from the Poundstone building, at the corner of Morgan and Third Streets, to the north room in the Logan building, Main and Fourth streets. The room was formerly occupied by Dr. E. C. Egan, a dentist, who moved recently to Gary, Ind., to engage in his practice.

Lost Library Service. There are in the United States, it is said, 80,000,000 persons who have limited or no library service.

## LABOR SITUATION IN JAPAN QUIT SERIOUS

Government Taking Steps to Combat the Evils of Unemployment Which Has Begun to Set in

### SLUMP HITS INDUSTRIES

Tokyo (By Mail)—The labor situation in Japan is becoming quite serious owing to the closing of many factories on account of the great slump in prices. A few months ago, when the country was still riding high on the wave of prosperity, labor was short and, as a consequence workers were able to secure advances in wages and other advantages. Now the situation has changed entirely, and the Government is taking steps to combat the evils of unemployment which have already begun to set in.

The slump has hit the weaving industries particularly badly. Thus the Yenshu Textile Company threw 12,000 men out of work recently, and many other factories have either discharged their men absolutely, or have laid them off for the time being hoping for better times to come. Mines, match factories and other industrial concerns have been compelled to follow suit, it is reported by the authorities that during May 56 big establishments closed throw work while many smaller concerns have added their troubles to the general confusion.

The Department of Commerce and Agriculture estimates that 162,000 workers have been discharged since January, and hopefully suggests that many of these may have found new jobs. The situation is aggravated, however, through the fact that Japan's industries are located in comparatively few centers, and as a consequence the evils are concentrating about 50,000 workers out of treated where they occur and cause very considerable hardship.

## TO OPEN AT WALNUT RIDGE

Harvest Time Meeting Will be Held by Winona Lake Evangelist

A series of evangelistic services will be started Sunday at the Walnut Ridge Friends' church, near Carthage, and will be the annual Harvest Time meeting, that has long been celebrated at his church. Evangelist Frank Long of Winona Lake will be the principal minister in charge and will be assisted by William Kinsey of Richmond, who is a singing evangelist of distinction. The services will be conducted for ten days or two week, and services will be held nightly in the church, beginning with the regular meeting on Sunday night.

## DEMAND IRISH TRUCE

London, July 14—A resolution demanding an immediate truce between the warring factions in Ireland and withdrawal of the British army, was adopted at a special meeting of the Trade Union, representing thousands of British workers, at Central Hall, Westminster.

## RUSHVILLE FARMERS TO MEET

The regular monthly meeting of the Rushville Township Farmers' association will be held tonight in the assembly room of the court house. Nothing of much importance is expected to come before the meeting, but a large attendance is expected to be present.

## IN A FEW DAYS

IT WILL HAVE BEEN 15 YEARS SINCE WE OPENED OUR LITTLE STORE IN RUSHVILLE.

In that time we have seen a complete change in the personnel of the grocery business, not a firm remains the same and only two men are in the business that were in it at that time. Through all these years we have been growing and today the volume of our business is greater than ever before. The fact that we have grown and are still growing is the best argument we have to offer in asking for your patronage. Folks don't continue to patronize a store that does not give them a square deal.

# Classified Advertisement

Telephone Your Ads 2111

This page is read eagerly by the entire county daily. It is invaluable for merchants, farmers, professional men and all progressive people.

**RATE**—All advertisements, except display are charged for at the rate of one-half cent per word for each insertion. We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed in should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum charge, 25 cents. No charge accounts opened.

CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:30 A. M. FOR PUBLICATION ON THE SAME DAY.

## Rheumatism's Pains Are Always Treacherous

Summer an Excellent Time to Combat the Disease.

Some cases of Rheumatism give very little trouble to their victim during the summer season, and for this reason now is a most favorable time to take a course of treatment that will reach the cause of the trouble and remove it from the system.

S.S.S. has proven a splendid

## SPECIAL TAXES DUE THIS MONTH

Continued from Page One

notes or other securities and proceeds of merchandise in \$500 a year. If the broker is a member of a stock exchange, board of trade, or similar organization, which sells produce or merchandise, and the average value on June 30 of a seat or membership in such organization was \$2,000 and not more than \$5,000 he is required to pay an additional tax of \$100. If such value was more than \$5,000 he is required to pay an additional tax of \$150. Pawnbrokers are subject to a special tax of \$100 a year.

The tax on ship brokers whose business is to negotiate freights and other business for the owners of vessels or for charterers or consignees of freight carried by vessels is \$100 a year.

Custom house brokers whose business, as the name of others, is to arrange entries and other custom house papers or to transact business at any port of entry relating to the exportation of goods and merchandise, pay a special tax of \$50 a year.

Theaters, museums and concert halls are taxed according to their seating capacity, and the population of the city or town in which they are located. Those having a seating capacity of not more than 250 are taxed \$50; seating capacity of more than 250 and not exceeding 500, \$100; exceeding 500 and not exceeding 800, \$150; in excess of 800, \$200. The tax in cities or towns of less than 5,000 inhabitants is one half of these amounts. This tax is paid by the proprietor. The special tax on circuses is \$100.

The tax on bowling alleys and billiard rooms is \$10 for each alley or table. Shooting galleries are subject to a tax of \$20. The tax on riding academies is \$100.

Persons carrying on the business of renting or operating passenger automobiles for hire are required to pay a tax of \$10 for each such automobile having a seating capacity of more than seven and \$20 for each such automobile having a seating capacity of more than seven.

The special tax on tobacco sales by the manufacturer are as follows; not over 50,000 pounds, \$6; in excess of 50,000 pounds and not over 100,000 pounds, \$12; in excess of 100,000 pounds and not over 200,000 pounds, \$24; in excess of 200,000 pounds \$24 and at the rate of 16 cents per thousand pounds or fraction thereof in respect to such excess.

Manufacturers of cigarettes, including small cigars weighing not more than three pounds per thousand and are taxed at the rate of 6 cents for every 10,000 cigarettes or fraction thereof.

The tobacco taxes are computed on the basis of sales for the year ended June 30.

The tax of pleasure boats, yachts, power boats and sailing vessels is rated according to the length and tonnage.

Wholesale liquor dealers who have qualified as such under the National Prohibition Act engaged in the sale of distilled spirits and wines for non-beverage purposes are subject

## THE NEW OVERLAND

On Triplex Springs nimbly glided over the nation's roughest roads has written a wonderful story of Stamina. The story began with the unprecedented pre-production test covering 250,000 miles of the wild country of the great Southwest. In its first eight months of service among 75,000 owners climax upon climax has been piled up in records of extraordinary performance.

The remarkable performance of the Overland is due largely to its jar-absorbing Triplex Springs, which prevent the usual pounding of rough roads from causing discomfort to passengers. They also reduce the stress and strain on motor and chassis, preserving the car for longer wear and reducing upkeep. The chassis itself of finest alloy steel adds to the stamina of the car as a whole.

The success of the Overland Triplex Springs has changed the attitude of thousands toward the light type of motor car. You cannot truly appreciate the comfort, economy and stamina of the new Overland until you have actually ridden in this car.
